### **REASONS FOR ALLOWANCE AND COMMENT**

1. The following is an examiner's statement of reasons for allowance: During the pre-Appeal Conference it was determined that the 101 rejection is not valid because the difference of "analyzing the regions having abnormal structure to identify regions having a high degree of abnormality" was not an inherent element and after updating the search it was determined that this feature is also not an obvious modification. For the same reasons the provisional double patenting rejection of claim 13 was also withdrawn.
2. New corrected drawings in compliance with 37 CFR 1.121(d) are required in this application because Figures 3, 6, and 8-9 are informal. Applicant is advised to employ the services of a competent patent draftsman outside the Office, as the U.S. Patent and Trademark Office no longer prepares new drawings. The corrected drawings are required in reply to the Office action to avoid abandonment of the application. The requirement for corrected drawings will not be held in abeyance.
3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
